Our Reviews

See what **our students** say about us

Being a part of the Interior Design program at NIDRT, helped me to grow as a person as well as a student. They gave help and advice when needed yet gave me the space to find things out on my own. The small class sizes allowed me to build relationships with my professors and my fellow students that were very similar to a typical design career environment.

Sourav Sharma

Priyanshi Bansal

All the faculties in NIDRT have wonderful and inspiring personalities. Hardworking teachers and friendly environment has been the key to success.

I give this course 5 stars. It starts you off with the history of interior design and each course gets a little more challenging. It makes you think outside the box and overall it helps build your knowledge and confidence. And The All staffs and faculties are Too Good In teaching.
